Local Physician Donates Land for New Traffic Signal

A new traffic signal is scheduled to be installed by _____ (date) at the intersection of Hwy. 27/441 and _____ (street name) in The Villages, due in large part to the efforts of local physician Akram Ismail, MD.

Dr. Ismail donated some of the land required to install the traffic signal, and also voluntarily took down a billboard on the property to facilitate the signal's installation.

“This is an important intersection, and people using businesses in the area, and those living in the surrounding community, have a very difficult time crossing the highway here,” said Dr. Ismail, of Professional Gastroenterology & Surgery Associates, which has an office adjacent to the intersection. “We believe having the signal here will help save lives and also calm traffic in the area.”
